### Heatstrip Website Launch

Thermofilm is proud to launch the Heatstrip dedicated website at [www.heatstrip.com.au](http://www.heatstrip.com.au)

The new website features more information on the product categories, updates, news, projects and technical information.

### Heatstrip donation to support Kilmore SES

Heatstrip is committed in supporting community organizations, whether it be by product donations or sponsorships. An example of this is our recent donation of a complete heating system to the Victorian State Emergency Service (SES) for their training room requirements, as well as Heatstrip sponsorship of several local community basketball and netball sporting clubs, to assist with junior participation and development programs.

### 2014 Manufacturer of the Year Award

Thermofilm has won the prestigious 2014 Manufacturer of Year award (Small Business) presented by the Hon. David Hodgett MP, Minister of Manufacturing Victoria at the annual Manufacturers Hall Of Fame presentations in June.

The key product driver is the Innovative, quality and stylish Heatstrip electrical radiant heaters.

This further ensures that when your customer purchases a Heatstrip product, they will have full confidence in a quality product designed and manufactured in Australia.

### TT-MTM Heatstrip Controller

The TT-MTM controller is designed for ease of use and low running cost in mind of Heatstrip outdoor range of heaters.

Features of the controller are:

- \* On/Off control
- \* Temperature control - High, Medium, Low settings
- \* Automatic timer control - 1,2,4 Hour Options
- \* LED indicators
- \* Control of a single or multiple heaters
- \* 1 Year Warranty
- Maximum 14 Amp direct wired.

For multiple unit installations, we would recommend one heater (less than 14 maps) is direct wired to the controller and additional units wired via a relay/contacter. Please refer to a licenced electrician for advice. [Click here for more detailed information...](#)
